Most major health plans provide coverage for surgical weight loss procedures. TLCEdge is experienced in dealing with insurance providers and will go the extra mile to get your surgery approved and there is absolutely no charge for filing your insurance. TLCEdge will not let a co-pay stand between you and your health and will work with you to set a payment plan that will fit your budget. There are no up front or non-refundable "program fees" required in order to submit your insurance for approval or to file your claims.

TLCEdge affiliated surgeons are very experienced in bariatric surgery, trained in laparoscopic (minimally invasive) techniques and have met the strict training requirements necessary to perform the LAP-BAND, REALIZE Band or Gastric Sleeve procedures.

Each are Board Certified surgeons and are members of the American Society for Metabolic and Bariatric Surgery. They maintain offices conveniently located throughout the North Texas community. Contact us today for more information.
